

Wednesday, April 30

Tonight Baker House is hosting a gathering of the MIT community: faculty, students, staff, and administration. This program will begin at 8 pm with a few words from leaders of various concerned groups: SACC, YAF, UCS, ROTC, the I-labs, etc. Rich "Rock" Adelstein will moderate that program. About 8:30 or 9:00 the meeting will split into small groups of both students and faculty for discussion. These groups will be small enough for everyone to participate actively. The students and faculty involved should get to know each other and begin to face some of the issues raised. The faculty is extremely enthusiastic about this program. They want to meet you and hear what you have to say. Tonight, a great number of faculty members will be here to listen. Take a few minutes to tell them what's on your mind.
